

OCEAN HOUSE AT A GLANCE

- OVERVIEW:** Ocean House sits high on the bluffs of Watch Hill, Rhode Island, overlooking a private stretch of beach with sweeping views of the Atlantic Ocean, Montauk and Block Island. Inspired by the Victorian architecture prevalent in the great houses of the Watch Hill area, the Ocean House evokes a timeless elegance that captures the residential ambiance of the area's turn of the century summer estates. As one of only eleven Forbes Triple Five Star resorts in the world, this beachfront Relais & Chateaux property features 49 guest rooms and suites and 18 Signature Suites, farm-to-table casual and fine dining, the impeccable 12,000-square-foot OH! Spa and more than 10,000 square feet of event space.
- LOCATION:** Watch Hill has one of the most pristine and spectacular stretches of shoreline on the East Coast. Dune grass and seabirds, waves and sunlight offer a deep and abiding sense of contentment. The Ocean House is a two-and-a-half-hour drive from New York City and one and a half hours from Boston, providing easy access to their international airports. Just four miles away, Westerly Airport welcomes private aircraft as well as regional air service. T.F. Green Airport in Providence is 45 minutes away and Amtrak services are available in the nearby town of Westerly. Transportation can be arranged through the resort to and from all airports and train stations.
- HISTORY:** Famously known for its warm, yellow façade and stunning views of the Atlantic, the Ocean House opened in 1868 just after the Civil War. The grand Victorian hotel was a genteel beach resort where generations of families and guests from across America came "to summer." The Ocean House welcomed guests for 135 years, until 2003 when the building closed. In 2004 a new structure replicating the original exterior design was conceived. The new resort features 49 rooms and 23 private residences, 18 of which are available for guests, providing a more spacious retreat as the original structure offered 159 rooms; however, all of the resort's 247 windows remain in their original positions. More than 5,000 salvageable artifacts and furnishing elements were lovingly harvested from the original structure's historic interiors. These elements are a part of the \$146 million new structure. The Ocean House became one of only eleven hotels in the world to earn the triple Five-Star designation from Forbes.
- DESIGN:** The new Ocean House is beautifully appointed and casually elegant with furnishings that bring together British Colonial, early American and seaside aesthetics in sundrenched colors of yellow, blue, turquoise and cream. Public spaces are adorned with a stunning, rotating, multi-million dollar art collection. The exterior, designed in the classic Victorian style of the original hotel, couples red-cedar shingled roofs with wide verandahs and features historically accurate reproduction accents to complement the rich history of Watch Hill.
- GUEST ROOMS:** Ocean House guest rooms pay tribute to luxurious, Victorian-era seaside hotels while providing every modern convenience. All guest rooms feature water views and many offer fireplaces. Master craftsmanship is evident at every turn of the gracious interiors; from the impeccably detailed architectural elements to the imported hardwood floors, the decorative copper trim and the custom designed furnishings. Each spacious room, ranging from 500-square-feet to the 4,000-square-foot deluxe suites, is richly appointed to reflect the feel of a sprawling seaside estate, offering an unrivaled residential experience.

Modern technology is integrated throughout the guest rooms, including high-tech communications, cell phone boosters and locking and control systems. HD LCD flat panel televisions with multimedia connectivity are available in rooms, as well as in the stately, carpevola marble bathrooms. Entertainment features also include iPod docking stations with sound bar, fully-stocked iPads available with movies and other entertainment, and high-speed wireless internet access throughout. A door-side panel with remote control capabilities allows guests to adjust the in-room environment with the touch of a button. State-of-the-art sensory technology alerts staff of housekeeping needs, including the removal of room service trays. To complement the residential experience, each guest room has a dedicated floor valet for butler service.

SIGNATURE SUITES:

A selection of 18 Signature Suites is also available to guests. The 1,200- square-foot Spa Suite offers exclusive access to the resort's OH! Spa and services with 180-degree views of the Atlantic Ocean. The unique Tower Suite encompasses four floors of private space in the Ocean House's flag tower, high above the resort, featuring a full kitchen and spacious private terrace. The Ocean House's most spacious suite is the Penthouse Suite, offering 4,000 square feet of indoor space featuring three king bedrooms, full kitchen, dining room and living room with a fireplace. The Penthouse Suite also offers 2,700 square feet of outdoor space with sweeping views of the Atlantic and Watch Hill Bay, as well as a Jacuzzi, outdoor kitchen and sunroom.

The cuisine is simple, based on the clean flavors of naturally prepared ingredients, and imbued with fresh herbs from the resort's herb garden.
